

INFRAGARD

InfraGard is a unique partnership between the Federal Bureau of Investigation (FBI) and individuals in the private sector for the protection of U.S. critical infrastructure and the American people. As one of the nation's largest public/private partnerships, InfraGard connects critical infrastructure owners, operators, and stakeholders with the FBI to provide education, networking, and information sharing on security threats and risks.

InfraGard's membership includes: corporate security managers, directors and C-suite executives, cybersecurity and IT professionals, chief information security officers, financial services executives, healthcare professionals, emergency managers, military and government officials, academia, state and local law enforcement, and more—all dedicated to contributing industry-specific insight to advance national security. Today, there are members in local InfraGard Member Alliances (IMAs), represented nationally by the InfraGard National Members Alliance (INMA). Each IMA is affiliated with the FBI Field Office in its region.

Mission

The mission of the InfraGard program is to enhance our nation's collective ability to address and mitigate threats to United States critical infrastructure by fostering collaboration, education, and information sharing through a robust private sector/government partnership.

To accomplish this mission, InfraGard promotes ongoing dialogue and timely communication between its members and the FBI through local, regional, and national programs. This two-way exchange of information equips InfraGard members with the knowledge, information, and resources to protect their respective organizations, while the FBI benefits from private sector engagement, insight, and expertise that can help prevent terrorism, cybercrime, espionage, and more.

Benefits

- ✓ FBI and other government agency threat advisories, intelligence bulletins, analytical reports, and vulnerability assessments.
- ✓ Presentations and trainings by the FBI or other government agencies.
- ✓ Direct engagement with the FBI, other government agencies, and private sector experts at the local level.
- ✓ Access to a members-only web portal featuring the latest FBI intelligence and the ability to view and share critical infrastructure protection information and collaborate with peers.
- ✓ Access to thousands of subject matter experts within each critical infrastructure sector, who share threat information as part of the INMA-led National Sector Security and Resiliency Program (NSSRP) and Cross-Sector Councils (CSC) Program.
- ✓ Invitations to regional and national InfraGard events.

InfraGard Structure:

The InfraGard program is managed through a partnership between the FBI-Office of Private Sector and INMA, an independent 501(c)(3) nonprofit organization, which manages the local IMAs.

The IMAs are also incorporated as non-profit 501(c)(3) organizations and work with their respective FBI field offices to hold chapter meetings, host events, educate, and serve their communities. Each IMA has a board of directors to manage its activities and operations. Upon being accepted for membership, individual InfraGard members have the option to join their local IMA.

Membership Requirements:

Be employed or formerly employed in a critical infrastructure sector.

- ✓ Be at least 18 years of age.
- ✓ Be a U.S. Citizen
(U.S. Citizen by birth as defined by 8 USC 1401-1409 or a U.S. Citizen by Naturalization as defined by 8 USC 1421-1459).
- ✓ Complete the InfraGard membership application form.
- ✓ Agree to the following: InfraGard Information-Sharing Policy, Privacy Act Statement, Agreements to Hold Harmless, and Code of Ethics.
- ✓ Consent to an FBI-conducted security risk assessment, which includes local, state, and federal criminal history and other security-related database checks.

Note: Students are eligible to apply as long they meet the above membership requirements.
